

Technical Specification

CoJet 2612

Print Heads	Konica Minolta 512 nozzles (4 heads, up to 10 heads optional)			
Drop Volume	14pl			
Print Color	C, M, Y, K, Lc, Lm, White Ink, (top coat ink optional)			
Print Resolution (dpi)	720 x 720		1440 x 720	
Print Speed, m ² /hr (ft ² /hr)	6/7 colors	4 colors	6/7 color	4 color
Up to m ² /hr (ft ² /hr)	14.1 (150)	28.2 (301)	7.1 (75)	14.2 (150)
Print Area	2350 mm x 1250 mm (96 inch x 48 inch)			
Max. Thickness	100mm (3.94 inch)			
Ink Type	UV Curable ink			
Media Handling	Flatbed moving gantry, Vacuum			
Media Type	Foam Board, Acrylic sheet, Glass, Wood, Aluminium, Tile, etc.			
Interface	Ethernet 10/100 Base T			
Support File Format	As RIP support			
Footprint	4600 mm x 3750 mm x 2000 mm			
Weight	2500 Kg			
Package List	CoJet - 2612s Printer system, Maintenance Tools, Power Cable, ink, Vacuum Pump, Communication Cable, Operation Manual			
Operation Enviroment	Temperature: 15-30° C (59-86° F), Humidity: 30-70% RH			
Power Requirement	200-240 VAC, 50/60 Hz, 32A, 3 Phase			
Air Source	5kg/cm, 30 L/min, Clean Dry Air			
Warranty	Printer: 1 Year, Print Head: 6 months			

All Anderson products feature a limited warranty - ask your local Anderson dealer for details. The information provided in this brochure (illustrations, photos, specifications, text) may change due to modifications or options. CoJet 2612 UV digital inkjet printer TRUE Flatbed

High level cost efficiency... like printing your own money.

Main features

- **Dual UV lamp for faster printing and on-demand power mode**

UV lamps installed on both side of the print head allows high production speeds. Cojet had three different power modes to be chosen on-demand by user.

- **Safety device**

Emergency stop button and alarm device ensures proper safety allowances for each user. Cojet also has a print head sensor which detects the correct height of the media which prevents print head damage.

- **High resolution printing and precise repeat printing**

Two synchronous servo motors allow exact dot placement of HD photographic print quality

- **Multi-zone vacuum system to hold down substrates effectively**

The powerful multi-zone vacuum systems allows media to be fixed securely even on uneven surfaces.

- **Multi-reference points**

Pop up pins allow exact consistent reference points for consecutive printing.

- **Visually guided Graphic User Interface**

Makes operation of printer easily

- **Automatically print head maintenance**

Head cleaning mode and capping station allow users to print with all nozzles on all heads perfectly.

- **Automatic ink refill system:**

Instead of manually pouring the ink, you can automatically refill ink from main ink supply system to the sub ink tank.

- **Individual print head heater:**

Each print head heater can be controlled individually for stable jetting.

- **Unique white-color simultaneously printing function**

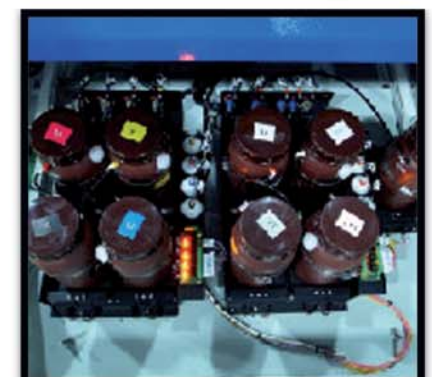

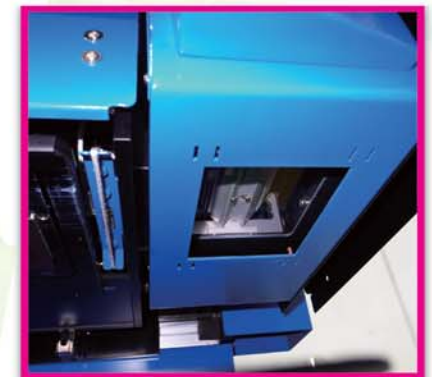

Vivid colors can be printed easily on transparent or dark media with the white/color simultaneous printing mode.

- **Circulation system of white ink:**

Prevents white ink clogging nozzle or tubes.

- **Saving the earth environmentally:**

The UV curable inks produced without volatile organic compounds.

Precise printing on large or small sized print media

The Cojet is the true flatbed printer that allows easy handling of a variety of media, while maintaining precise printing accuracy. HD print quality up to 1440 dpi for photographic print demands of your customers. The Ajet versatility means you can print vivid images on difficult substrates such as transparent and dark media. Ajet again offers the optional clear coat which allows high gloss finish as required. Ajet not only can be used for sign and graphics but also for various industrial applications with its 100mm (3.94 inch) print head height allowance.

- **Wide range of materials can be printed:**

Printable materials include acrylic, plastic, glass. Wood, aluminum, ceramic and foam board. Cojet will handle all of your printing needs effectively.

- **Thick and heavy media can be printed:**

With a maximum printing thickness of 100mm (3.94 inch) plus the maximum media weight of 500kd (1100lbs) makes Cojet the printer that you need to handle all of your printing needs.

- **Motorized height adjust mechanism:**

This allow the user to adjust the height of the print head with maximum efficiency.

- **Overflow tank function:**

Helps user handle ink overflow easily.
